SUPERCOLOR

The **Super-Eco-Friendly** paint, a champion in all fields.

UNBEATABLE

It wins in
breathability

It wins in
washability

It wins in
yield and coverage

DECO PAINT DIVISION

OIKOS
the ecological decorative paint

SUPERCOLOR: A CHAMPION OF **WASHABILITY, BREATHABILITY, YIELD AND COVERAGE.**

If there was a world record for paints, it would be ours. With the **100% eco-friendly** SuperColor paint, we reached the **highest washability, breathability, yield and coverage performances.** And you don't have to choose between one or the other. You can have them all in a single product. Better yet, in a Super product.

SUPERCOLOR: **IT CONQUERS ALL WITH ITS PERFORMANCE.**

It's guaranteed: once you go SuperColor, you can never go back. It's an eco-friendly, washable, breathable acrylic paint **ideal for any indoor environment.** Thanks to its excellent white balance and coverage, it is **perfect for smooth/matte finishes with a super cost-effective yield per square meter.**

SUPERCOLOR: MANY SUPER BONUSES.

EXCELLENT WASHABILITY

Scrub resistance: Class 2 (UNI EN ISO 11998).

HIGH BREATHABILITY

Water vapour permeability Class V1:
high (UNI EN ISO 7783-2:2001).

HIGH YIELD

Up to **22 sqm/l** with one coat.

VERY COST-EFFECTIVE

Excellent **cost/yield/performance ratio**.

ECO-FRIENDLY

It combines **sustainability and environment**,
along with the user's well-being.

GREAT COVERAGE

It can be used to cover **up pre-existing colours**
(including intense and vibrant nuances).

EXCELLENT WHITE BALANCE

For a **white that brightens up** any room.

WIDE RANGE OF COLOURS

Over 3,000 ready-made colours with the tinting machine.

SMOOTH MATTE EFFECT

For **aesthetically- and touch-pleasing finishes**.

IDEAL FOR ALL ENVIRONMENTS

Particularly suitable for (old/new) **cement plaster, gypsum plater, and already painted walls**, even with strong nuances.

TESTED AND GUARANTEED BY OIKOS SINCE 1984

Millions of litres sold and appreciated worldwide are the
best guarantee of its being SUPER.

SUPERCOLOR: CHAMPION OF **WELL-BEING** AND **RESPECT FOR THE ENVIRONMENT.**

SuperColor is a product by Oikos, therefore is **SuperEcoFriendly**. When you apply it, **you won't breath in any toxic substance** (very low VOC), and, of course, nor when you enjoy the room you painted anew.

In addition, thanks to its breathability, you will **breath healthy and mould-free air**. SuperColor and its production cycle **do not create polluting waste**. So, the Planet can breathe too.

SUPERCOLOR: ROOM FOR QUALITY, IN ALL ENVIRONMENTS.

SuperColor is ideal in **any residential or work environment**, even where there's a risk of soiling and in humid places. Being washable, it can **be easily cleaned**, and being breathable, it lets **every wall breathe perfectly**. It is unbeatable on any kind of surface: cement plaster, gypsum plaster... and for every need. This is what makes it truly universal: just like the consensus it builds.

house environments

hotels

shops

kitchens, canteens, restaurants

SUPERCOLOR: CHAMPION IN **WASHABILITY** AND **BREATHABILITY**.

SuperColor combines two essential qualities, so you won't have to choose between one or the other: just choose SuperColor. Its **high washability** (class 2) makes it easy to clean and ideal for environments that soil up. Its **breathability** lets the walls breathe, ensuring the highest level of healthiness, and **making it ideal also in humid environments**, such as bathrooms and kitchens.

SUPERCOLOR: CHAMPION OF **YIELD** AND **COVERAGE**.

When we thought about SuperColor's benefits, we also focused on its cost-effectiveness. The high yield ensures a **low cost per square meter**, with an excellent **value for your money**. And lots of **product savings**. In addition, its exceptional coverage - which allows you to paint over walls that have been painted with strong hues, ensures the **highest time savings**.

TECHNICAL INFO

	<p>DILUTION Fresh water 50÷70% dilution, based on the surface</p>
	<p>YIELD</p> <ul style="list-style-type: none"> • New cement plaster wall: 7÷8m²/l in two coats • New gypsum plaster wall: 9÷11m²/l in two coats • Wall already painted with strong colours: 8÷9m²/l in two coats • Painted with light or pastel colours: 12÷15m²/l in two coats
	<p>TOOLS Brush, roller or spray (1.7 mm nozzle)</p>
	<p>WATER VAPOUR PERMEABILITY Sd 0,35 m (max limit allowed 2 m DIN 52 615)</p>
	<p>SCRUB RESISTANCE Compliant with Standard DIN 53 778, resistance to at least 1,000 scrub cycles.</p>
	<p>ABRASION RESISTANCE Compliant with Standard DIN 53 778, resistance to over 5,000 abrasive cycles, higher than 40,000 brush strokes.</p>
<p>VOC</p>	<p>VOLATILE ORGANIC COMPOUNDS (VOC) EMISSION LIMIT according to Directive 2004/42/EC</p> <ul style="list-style-type: none"> • Class: A/a • VOC: 12g/l (max) • Phase I limit (from 1.1.2007): 75g/l • Phase II limit (from 1.1.2010): 30g/l
	<p>COLOURS Over 3000 ready-made colours with the tinting machine</p>
	<p>DRY TO THE TOUCH 1÷1.30 h (temperature = 20°C with relative humidity of 75%)</p>
	<p>COMPLETELY DRY 4 days (temperature = 20°C with relative humidity of 75%)</p>

WHY SUPERCOLOR

BENEFITS

- ✓ It combines **washability and breathability** in a single product.
- ✓ Excellent **cost/yield/performance ratio**.

Here you can see a small fraction of them. Because an eco-friendly wall paint like SuperColor deserves to be chosen in **your favourite nuance**.

The colours shown are the result of a printing process, therefore before applying to the wall, make sure you try out on a small area, to check the true colour tone.
